

ZUPPA VeTrack AIS 140 Vehicle Tracking System

Beyond Tracking

MORTH Compliant AIS 140 VLTD

- AIS 140 full features with panic button.
- Accident and Dynamic Overspeed Alert.
- Plug and play OBD II connectivity.

FEATURES

- AIS 140 Compliant Hardware and Communication Protocols
- Multiple Server Connection upto 6 servers
- **AIS Standard Compliant Data Packet Configuration**
- Multiple Emergency Button Integration
- **OTA configuration using Server and SMS**
- Alerts: Emergency Button, HardBraking, Rash/Sharp Turn, Hard Acceleration, Over Speed, Tampering, Vehicle Immobilization
- **Future Regulation and Customer requirement Configurable**
- OBDII Automatic Communication Protocol Interfaces: J139, OBDII, CAN Protocol Stack
- AIS Compliant Connectors

SPECIFICATIONS

- Input voltage source: 12 V / 24 V (DC)
- Internal Battery: +3.7V 1050mah Lithium Ion Battery
- Casing: IP-65 Rugged Casing, Weather and Water Proof
- Processor: Automotive Grade 16 Bit
- Communication: GSM/GPRS-2G
- Flash Logging Capability: Standard AIS140 40,000 logs
- GPS Positional Accuracy: 1.5 to 2.5 m
- Temperature range: -40° C to 85° C

LOG DATA

- Position of vehicle
- Time in minutes since engine start
- Current Speed of device
- Heading / Course, Odometer since start, Elevation of device
- GPS Accuracy
- Analog Inputs channels (3 channels)
- Current Consumption and Life:
- Internal Battery: 4-6 hours @ 100mA consumption
- External Power: 1Amp consumption (for charging)
- **Default Log interval: 30 seconds (configurable via GPRS/GSM)**
